

**Subject: Application – Team Coordinator / Operations Supervisor Position**

**Dear Recruitment Team,**

I would like to apply for a Team Coordinator / Operations Supervisor position. I am seeking a role where coordinating daily operations, prioritizing tasks, and supporting team performance are of paramount importance.

During nearly four years at Prohuman Zrt., I supported daily operations as a Senior Call Coordinator. My responsibilities included coordinating workflows, managing task priorities, identifying and addressing issues, and supporting the onboarding of new colleagues. My performance evaluations were consistently above 95%.

My medium-term goal is to develop into a supervisor/team coordinator role and create value for the organization through organized operations, quality performance, and team support.

I would be delighted to present my experience in a personal or online conversation.

**Best regards,**

Gyula Magyar
