PROFESSIONAL SUMMARY

I am an IT-oriented professional with an administrative and operational background, strong in structured problem-solving and well-documented work. Through IT-focused training, I have gained foundational knowledge in system administration and IT support (Windows environments, Active Directory concepts, virtualization, MS SQL fundamentals). My goal is to work in a junior IT support or IT operations support role where I can combine technical curiosity with reliable, high-quality operational performance.

TECHNICAL & OPERATIONAL SKILLS

- IT support mindset, incident handling
 - Windows environment fundamentals
 - Active Directory – basic permission management
 - MS SQL Server – operational basics, querying
 - Documentation and ticket handling
 - Microsoft Office – advanced level
-

PROFESSIONAL EXPERIENCE

Senior Call Coordinator – Prohuman

April 2021 – February 2025 | Remote

Handling customer and internal requests, logging incidents and supporting their resolution. Managing administrative processes and documentation, forwarding and tracking technical issues.
